WebWatcher, PCMag.com Editor's Choice for Parental Monitoring Software, offers a full family of monitoring software compatible with PC, Mac, iPhone, Android and BlackBerry. All WebWatcher products install easily in 5 minutes or less, are undetectable and all recorded data is sent to a secure web-based account which allows you to monitor kids and employees at your convenience from any computer. WebWatcher allows you to monitor multiple devices (such as a PC and an iPhone) from the same user interface so you get one unified view.
